

BUSINESS OPERATIONS PORTFOLIO

Designing structured systems, practical automation
and scalable workflows.

Case Study: Digital Marketing Agency Operations

Lead Management • Client Setup • Planning & Production • Performance & Reporting

BUSINESS OPERATIONS

Building the invisible infrastructure that helps businesses scale.

INSIDE THIS PORTFOLIO

- ✓ Standardized Workflows
- ✓ Business Systems
- ✓ Practical Automation
- ✓ Documentation
- ✓ Performance Reporting

PROJECT CONTEXT

Designed for a digital marketing agency.

The business systems, workflows, and automation principles demonstrated here are applicable across industries.

OPERATIONAL FRAMEWORK

Four integrated business systems powering agency operations.

LEAD MANAGEMENT

Manage every lead from inquiry to conversion.

CLIENT SETUP

Prepare clients for successful delivery.

PLANNING & PRODUCTION

Plan, create and approve content.

PERFORMANCE & REPORTING

Measure results and share insights.

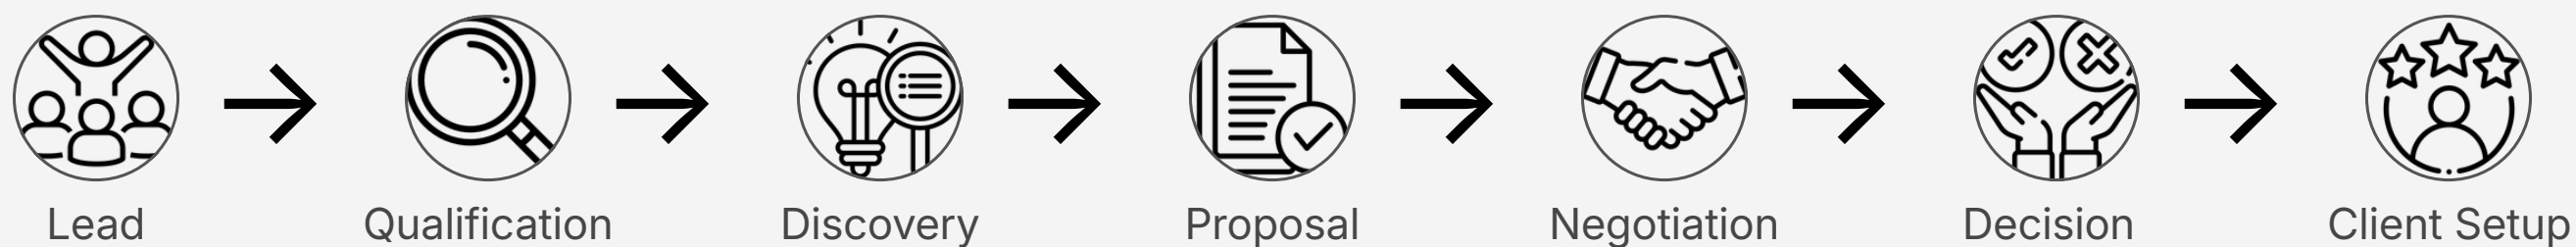

Each business system is explored individually in the following slides.

LEAD MANAGEMENT

Standardize every lead from inquiry to client setup.

WORKFLOW

MANAGED THROUGH

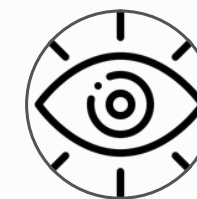

LEAD MANAGEMENT SYSTEM

Captures, tracks, and manages every lead in real time.

BUSINESS VALUE

Standardized
Process

Complete
Visibility

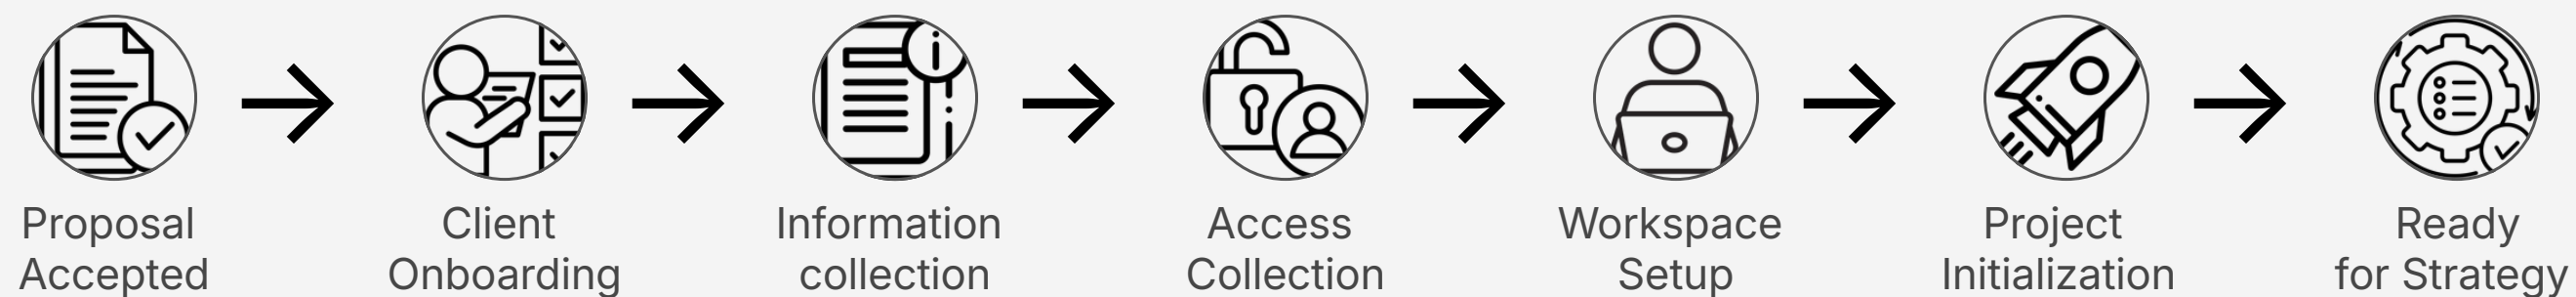

Reliable
Handoff

PERFORMANCE & REPORTING

Measure performance. Deliver insights. Drive better results.

WORKFLOW

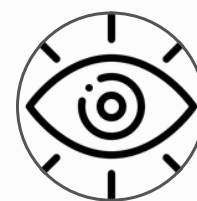

MANAGED THROUGH

PERFORMANCE REPORTING SYSTEM

Tracks performance, analyzes results, and generates actionable reports.

BUSINESS VALUE

Performance
Visibility

Data-Driven
Decisions

Continuous
Improvement

Transparent
Reporting

Right insights. Better decisions. Stronger results.

OPERATIONAL ECOSYSTEM

The integrated tools and systems powering standardized agency operations.

SYSTEMS

Core workflows that run the business.

Lead Management

Client Setup

Planning & Production

Performance & Reporting

BUSINESS ASSETS

Documents that standardize execution.

SOPs

Templates

Reports

Presentations

AUTOMATION

Automates repetitive operational tasks.

Google Apps Script

Workspace Automation

Client Folder Automation

PLATFORMS

Tools used for collaboration and execution.

Google Workspace

Jira

Integrated systems. Practical automation. Consistent operations.

ABOUT ME

I enjoy designing and improving practical operational systems. I combine systems, automation, documentation, and AI to boost efficiency and consistency.

CORE EXPERTISE

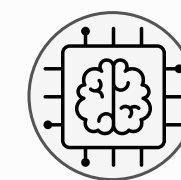

Business Operations

Designing structured workflows and business systems.

Automation

Reducing repetitive work through automation.

AI

Using AI to improve productivity and decision-making.

Documentation

Creating SOPs, templates and guides.

Strategy

Turning business goals into structured processes.

Focused on building scalable systems that help businesses operate more effectively.

THANK YOU

for taking the time to review my portfolio.
